EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the Claims

In claim 19: on line 4, after "element", ", "(comma) has been deleted.

In claim 33: on line 4, after "electrochromically", -- , --(comma) has been inserted.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: References of record, taken singly or in combination, fail to teach or fairly suggest the transparent glazing of independent claim 19, wherein the light transmission of which glazing can be varied reversibly, and wherein a portion of its surface can be darkened by electronic control on a functional element comprising at least one electrochromic functional layer arranged between two surface electrodes in cooperation with leads corresponding thereto so as to carry out a darkening that starts at one edge of the functional element, and to achieve a complete and uniform color of the functional element through continuous application of voltage between the two surface electrodes. With respect to the method in independent claim 33, the control of a functional element, in an all-solid-state electrochromic surface element which includes a functional layer, through introducing an electrical potential between two surface electrodes in order to

electrochromically change a color from one side of the electrochromic surface element, and through increasing an electrical potential on a surface of one surface electrode, having a surface resistance, relative to another surface electrode, having another surface resistance, in order to direct the propagation of a change of color of the surface element, wherein the rate of increase depends on respective surface resistances, is neither taught nor suggested in the art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
